

REUTILIZATION

The goal of Tennessee Technology Access Program's (TTAP) Reutilization is to promote the donation, repair, and reuse of technology and durable medical equipment for individuals with disabilities. Signal Centers' Assistive Technology Center and Goodwill HELPS work together in Southeast Tennessee to provide a supply of free assistive technology and free durable medical equipment for those individuals. Everything in the reutilization program is cleaned, repaired, and refurbished before being distributed.

Whether for home, work or school, the reutilization program provides equipment so people can be more independent and have a higher quality of life.

**Recycle Technology!
Don't Throw it Away!**

Please Donate:

- Computers and Laptops:
Pentium 4 or newer (PC)
